Notes from Rogo Field about club member's adventures

Ken Coleman and Eric Adams help me erect our prototype pilot station. Ken then used it for an inaugural flight. He was very pleased!

It is located in a temporary location until we build the rest of the pilot stations.

Michael maidenied his Kyosho Ryan. It flew very smoothly, very scale looking.

Ken feels like he is out in the field using the new station.

My first jet!

**Yes there is a net!
Its strong plastic bird net.**
