**Notes from Rogo Field** about club member's adventures

**Michael Maidenened his  
new  
DH Tiger Moth  
Today.**

**Not a great day for a  
light Bi-Plane!**

**Winds were gusting  
to 20Kph and were  
mainly from the north  
with the odd period  
of an easterly  
crosswind, usually  
after you had taken  
off!**

**Take off was gentle and very scale like  
but a fair amount of trim was needed.  
This was likely caused by the turbulent  
wind.**

**Flying was good if a little fast. The  
colour scheme works well and it looked  
every bit the Tiger Moth in the air.**

**That's Michael in the back seat with his  
student, Don Duthie, up front.**

**Landing below, the touch of the master  
is very evident, and no tipping over.**

Notes from **Rogo Field** about club member's adventures

**Here's the final result!**

**Nice open view of the runway, plenty of room for a Student and Instructor and a special helicopter station.**

**Fabiano & Burt saying unkind things about my Dollar Store Wire Ties!!!**

**The netting will be replaced with a sturdier variety!**

**Ken shoots the shooter!**

**Fabiano gets to be the first to fly with Dr. John looking on!**
