

110 years of Aviation Heritage in Hertfordshire: 1911 to 2021

Wednesday 15th December 2021

18:40

The presentation will cover the characters, the locations and the aircraft that make up Hertfordshire's diverse and talented development of aviation, from the early pre WW1 pioneers through to the present day.

Guy Thomas

Guy has a lifelong interest in Aviation Heritage and has written and published several aeronautical drawings and articles. He

has recently developed an 'Aviation & Auto Heritage' website and as a Tour Guide with the RAF Museum, is researching the history of London Colney Airfield. As an employee with the University of Hertfordshire, he helped develop the Hatfield Aerodrome Heritage Trail and now provides guided tours of it.

Guy has a Gliding Certificate, several hours flying Chipmunks and Tiger Moth G-ACDC. He also held a commission in the Royal Naval Reserve.

The lecture will be preceded by presentation of the Branch Student Prizes for 2020/21
